

## Gas-Fired and Electrically Heated Curing Ovens

Posted: November 22, 2000

High temperature walk-in ovens from Precision Quincy Corp. can be used to cure wet and powder Teflon coatings. Models are offered in sizes from 96 to 360 ft<sup>3</sup>, and each has adjustable horizontal/vertical airflow with top return duct, heavy-duty blower and insulated floor. Ovens can be fitted for low temperature curing of powder coatings.
